LOST

Margot

Breed:	**Australian Cattle Dog/Blue Heeler**
Location:	Lake Forest area
Sex:	Female
Age:	2-3
Description:	Margot is a rescue dog with One Tail at a Time, NFP who escaped from her Lake Forest foster home on 2/15 and is now loose in the area. She is currently microchipped and wearing a light blue collar with sheep on it. Margot was previously a stray for nearly a year and was very elusive in being caught. She was picked up by Kane County Animal Control and it is believed she may try to go back to her 'den' in that area. Though she adores people once she gets to know them, she is can be skiddish with strangers and scares easily in new environments. Margot is good with other dogs so she may be more inclined to come over to you if you have a dog-social dog with you.
